

Industrial Project Pipeline

LNG, pipelines, mining, power, turnarounds and major industrial construction across B.C., Alberta and Saskatchewan: what changed, what's next, and who's hiring.

British Columbia · Alberta · Saskatchewan

Full issue: 12 pages · 15 project briefs · 8 charts and maps · 90-day calendar

LEAD STORY · KITIMAT

Kitimat restarts: LNG Canada Phase 2 is sanctioned and early works are under way

LNG Canada's partners took FID on Sep 28. The two new trains double capacity to 28 Mtpa. The JGC Fluor joint venture received notice to proceed the next day, and early works began Oct 1. That first phase covers grading, piling, water treatment and marine work and runs about four months. Peak construction is put at up to 4,000 workers.

Coastal GasLink Phase 2 proceeds alongside: new compressor stations rather than new pipe, with up to 2,100 people across five sites from early 2027. LNG Canada is execution manager for both.

What to do: Get qualified with LNG Canada and the JGC Fluor JV now. The plant and the compressor-station work go through effectively one buyer.

PROCUREMENT CLOCK

North Coast line: bids due Dec 15

BC Hydro sends the final draft contract for the Prince George–Glenannan line to four shortlisted teams on Oct 15. The award is planned for May 2027.

What to do: Team with Aecon, Allteck, LF North Coast or Valard this quarter.

BEFORE YEAR-END

Four decisions to watch

The B.C. election (Oct 24), the Ksi Lisims FID target, Newmont's Red Chris FID and a pending court ruling on PRGT.

ALBERTA

Oil pipeline listed, but no shovels before late 2027

Pacific Link was listed in the national interest Oct 1. Alberta says construction could start as early as Sep 1, 2027.

ALBERTA

The Heartland labour squeeze is coming

Dow Path2Zero (up to 5,500 at peak), Meta's data centre and the Greenlight gas plant overlap in Fort Saskatchewan/Sturgeon County from 2027.

SASKATCHEWAN

Jansen is 84% built

BHP's Stage 1 potash mine targets first production in mid-2027. Stage 2 is 16% complete.

28 Mtpa

LNG Canada capacity after Phase 2, up from 14 (LNG Canada)

~4,000

Peak Phase 2 construction jobs in Kitimat (Lakes District News)

Dec 15

NCTL Prince George–Glenannan line proposals due (BC Hydro)

1,400

Peak NCTL construction jobs, Phases 1–2 (BC Hydro)
